This course is designed to ensure your new or existing staff have sufficient technical skills ahead of the annual tax season. This is essential for doing the best job you can for your clients and ensuring they return to you next year. This course, being a four day course, will provide the necessary coverage to place you ahead of the pack. Its content is among the most comprehensive and authoritative in Australia. As well as providing you with the best possible preparation, this course is a valuable addition to any CV. The course uses real life examples to ensure your staff will be ready to prepare individual taxation returns correctly the first time.

Course Outline

- ✓ Demonstration of tax preparation software packages

About the trainer

- Brett Thornett CPA

Brett is a Director of Applied Education and a highly experienced instructor. He spent the early years of his professional career applying his Bachelor of Business and CPA qualifications in public practice (mostly with Mann Judd). Brett later held positions in a number of major organisations including the NSW public utility AGL, as well as lecturing in commercial law, accounting, finance and taxation. Prior to establishing Applied Education, Brett was National Training Manager for a leading taxation software provider HandiSoft Software.

With Brett's experience and track record as a trainer, creating the Applied Education's Tax, Payroll and Salary Packaging training courses was a logical progression. He also applies his software experience and knowledge as a CPA to set up and maintain accounting software and taxation systems.

Course Requirements

All attendees should bring the following items to this course:

- ✓ A Master Tax Guide (2009 or 2010)
- ✓ A calculator
